

ONLINE DESIGN SYSTEM +VDP

Online designer, document personalization and variable data publishing system

The **cloud-based Aleyant eDocBuilder™** is a powerful, **online designer, document personalization and variable data publishing system** for your company. Included with **Aleyant Pressero™**, it is also offered separately on a **SaaS (hosted)** basis for integration into your own e-commerce storefront.

Open architecture

Integrated into third-party web-to-print systems

Interactive templates

Enables customers to design online

Form-based templates

For maximum brand control

Easy to use

Your customers will quickly and easily create documents

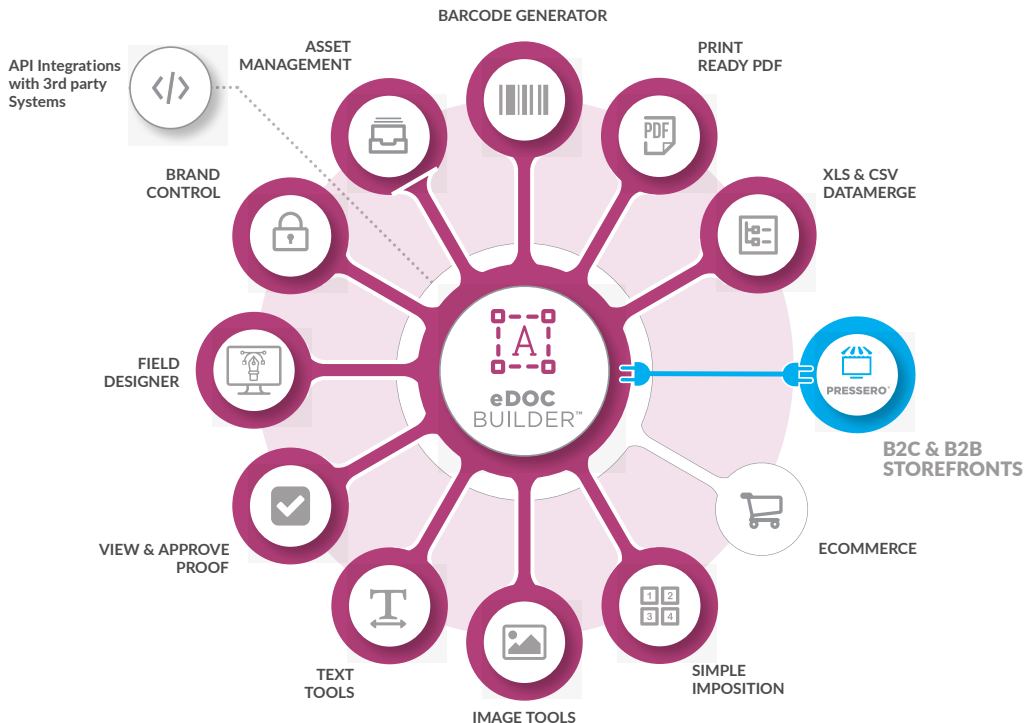

Surface Wrap

Preview the final object in context for label projects

Field Designer

See the templates being created in real time

Using eDocBuilder, your customers quickly and easily customize, proof and approve documents from a web browser

The powerful interactive designer for creating and approving print-ready files is based on HTML5

Automating Your Success

Aleyant's automated print software solutions create a solid foundation for growing your print business (and customer count) by automating daily print processes such as ordering, pricing, file correction, production, customer service and more.

Our automation print software reduces manual touches, errors and production time for your print shop. With it, you can connect online design to B2C and B2B online print stores. Connect your print store to estimating, production management and to customer service and prepress automation. You can use Aleyant software products separately, together or with over 1500 third-party apps via direct API or Zapier. Start Automating Your Success today at aleyant.com.
